To Whom It May Concern:

After using the Electro-Acuscope and Myopulse for four years I am writing to give you a report on the great successes that I have achieved through my use of these instruments.

First, I would like to report that 90%-95% of my patients now achieve pain relief through the use of the Acuscope and Myopulse. This is an exceptionally high percentage in comparison to my previous experience during seven years as a physical therapist.

These instruments have been influential in attracting professional and all American athletes to Eberhardt Physical Therapy and Wellness Clinic, Inc. for physical therapy. Some of the well known athletes I have treated with the instruments are listed below:

| | |
|---------------------------|---|
| Karl Malone N.B.A. Star | Utah Jazz |
